# Vikas Kumar Singh

Senior Software Engineer at Oracle
Hyderabad, Telangana, India

## Summary

I am a highly motivated, dynamic, team-spirited individual with excellent interpersonal skills with a career objective to work hard with full determination and dedication to give my best in my professional pursuit for benefit and growth of the organization that I serve by solving the challenges by utilizing my intellect and expertise like leadership, helpfulness, full integrity and zest.

## Experience

### Oracle
Senior Software Engineer
October 2018 - Present (1 year 10 months)
Hyderabad, Telangana, India

· Integrated Monster to Taleo, providing a platform to the recruiters which reduced time for

candidate search ,making Taleo A complete HR Solution Suite.

· Containerized Legacy application and deployed its different module to Oracle Cloud using

Docker and Kubernetes.

· Analyzed and identified most used entity/objects of the application and put it to Coherence(Distributed Cache) and reduced Application latency.

### BT
Technical Analyst
May 2016 - October 2018 (2 years 6 months)

· Designed and developed business critical processes and automating T2R scenarios using GetAFix(BT internal, state and event driven framework)

· Created message driven beans and JMS messages using message driven EJB.

· Worked on Hibernate 3.0 for interacting with database.

· Have deployed application in live and monitored the application and its performance

· Extensively used xml-object binding using JIBX, XPath apis, XML Dom Parsing using Xerces API's, working with property files.

· Used Enterprise libraries for logging (log4j apis).

· Worked on analysing Memory leaks, Hogging Threads, Leaking connections and reproducing scenarios in Performance Testing environment and providing the appropriate fix for the issue.

## Amdocs
Software Developer
July 2015 - May 2016 (11 months)
Magarpatta City, Pune

• Developed the OMS product as per requirement using JAVA and SQL.

• Fixed development bug found during Go Live of the product.

• Delivered Business as well as Technical flow to the app support team.

• Provided support and fixed defects related to the product.

## Wipro
Project Engineer
March 2013 - July 2015 (2 years 5 months)

---
